INDEX TO 1978 ASCE PUBLICATIONS

FOREWORD

The 1978 index, which provides a guide to information published by ASCE during 1978, combines material appearing in the Journals (Proceedings Vol. 104), CIVIL ENGINEERING (Vol. 48), Transactions (Vol. 143), Manuals and Reports, and Special Publications.

The user will find all articles and papers dealing with specific subject areas listed under one or more appropriate subject headings suggested by the content and application of the paper. The Engineers Joint Council "Thesaurus of Engineering Terms" has been used as the primary source of index terms. The Water Resources Thesaurus of the U.S. Department of the Interior and the Micro-Thesaurus compiled by the Soil Mechanics and Foundations Division of ASCE were also used.

The Index can be used in conjunction with the information-retrieval cards printed in the front of each Journal and to the rear of CIVIL ENGINEERING. The bold key words on the information-retrieval cards are the words used as index terms in the 1978 Index.

The name index contains entries indexed under the names of author, co-authors, discussers, chairmen of committees preparing reports, and deceased members whose memoirs appeared in Transactions.

In the name index, the entry for a Proceedings Paper (under the first name if more than one author) is supplemented by information concerning the discussion, closure, and Transactions digest, if applicable. To find what discussion, if any, there has been for a Proceedings Paper located in the subject index, the reader looks under the entry for the first-named author in the name index. When discussion of a paper from a prior year is published, the original entry is repeated. Discussion over a period of time can be traced until the closure to the paper is located.

When the paper appears in Transactions, the complete entry including original paper, discussion, closure, errata (if applicable), and Transactions citation appears in the name index.

Typical abbreviations used herein are:

Dsc for discussion
Clo for closing discussion
Corr for corrections
Err for errata
Chmn for Chairman of a committee submitting a report
TR for Transactions
TN for Technical Note

The original publication can be found from the index entry as follows: Papers appearing in the Journals (Proceedings) are listed as:

GT9:Sept 78:1169:14042

which would indicate a paper published in the Journal of the Geotechnical Engineering Division, September 1978 on page 1169, as Proceedings Paper 14042.

The Transactions entry

TR:143452

indicates that the Digest appears in Transactions, Volume 143, on page 452.

Articles and news items published in CIVIL ENGINEERING are represented as:

CE:May 78:69

Which states that the article appeared in CIVIL ENGINEERING in the May 1978 issue on page 69.

In addition to articles, the following Departments of CIVIL ENGINEERING are indexed: ASCE News, Engineers Notebook, The Readers Write, and The Younger Viewpoint.

Items indexed from Vol. 104 (1978) of the Journals are identified by months. The number of Journals published by a Division in 1978 can be obtained from the number after the last Division abbreviation i.e., GT 12, Dec. 1978 identifies the twelfth issue of the Journal of the Geotechnical Engineering Division. The complete list of paper numbers and Journals for 1978 is as follows:
